Dear Colonel,

We had our Council meeting last evening and checked on which services were ready and willing to play in the June 20th ALERT. Enclosed is a brief report of the meeting. It was an alive Council meeting with the working factions sparking the interest of the idle elements. For a year I have pushed people and things around trying to make things mesh and last night was the first time that I have felt that things were beginning to form into an organized whole. After the meeting no one went home, the talk continued in small groups for some time.

No real problems were formulated, so you can take the report and do your own formulating. There will be a dry run on June 15th at our office and if you have the time we would be pleased to have you join us at that time. If you can't make it and care to send instructions we will be glad to carry them out.

One result of last nights meeting...requests for help of the office in many services...lot of work, but that is fun.

Sincerely,

Grace
